## **ADANAC VALVE SPECIALITIES LIMITED**

We hereby certify that ADANAC Valve Specialities Limited are an approved sub-contractor for the manufacture and supply of the following valve modifications to Worcester products:

**Steam Jackets:** Manufacture, fabrication and test of steam jackets to Worcester flanged and three piece valve bodies. All steam jackets are pressure tested to 1.5 x pressure rating at ADANAC prior to the final valve assembly and test at Flowserve Flow Control (UK) Limited.

**Cryogenic Stem Extensions:** Manufacture, assembly and test of cryogenic extension stems to suit flanged, multiway and 3-piece Worcester valves. All extensions are pressure tested and welds radio graphed to Worcester requirements prior to final assembly and test at Flowserve Flow Control (UK) Limited.

All products comply with the requirements of Worcester Controls and to our knowledge all installed product is working satisfactorily.
